

CURRENT POTENTIAL PARTNERS

Below you will find a list of non-profit and public agencies with which we currently have a relationship. If you would like to partner with any of these agencies through a service learning placement, a service learning project, or community-engaged internship, please, contact OCELTS. We have current Memoranda of Understanding (MOU) with many of these agencies. With some, we have a relationship that will allow us to facilitate the signing of an MOU, should you request that we pursue that course of action.
